

Apparel

At Fleet Feet Sports Annapolis we believe that technical apparel will improve your performance and wearing the correct clothing will make your workout more comfortable. Technical fabrics are designed to wick moisture away from the skin surface to keep you drier. This will help you avoid getting chilled in the winter, and reduce the chafing and dampness that is common with cotton garments in the warmer months. If your body is able to regulate temperature your results will improve dramatically. We carefully select apparel based on its moisture management abilities, fit and comfort.

From fitted base layers to loose fit thermal layers to water- and wind-resistant shells, we offer a broad selection of men's and women's workout clothing year round. Currently, our apparel brands include Adidas, Asics, Brooks, Descente, Mizuno, Moving Comfort, New Balance, Nike, Champion, Race Ready, Oiuselle, North Face, Lole, Craft and Sugoi. Apparel selections will always vary and for best selection in your size you are encouraged to visit often, as new apparel inventory is constantly changing.

Please keep in mind that apparel is seasonal, so we might not have all brands all year round.
